

## **Department of Botany**

**Activity:** Guest Lecture

**Date :** 23<sup>rd</sup> August 2019

**Name of the program:** Elucidation of ATP synthase structure using molecular biology and cryo electron microscopy

**Industry associated with:** Dr. Anurag P Srivastava, Associate Professor, Life Science Department, Garden City University, Bengaluru, Karnataka

**Brief report:** The inaugural talk was organised by the department on the National Science day and the talk was very informative. Dr. Anurag Srivastava presented his postdoctoral research work which he had done at Rosalind Franklin University, USA in collaboration with Harvard Medical School, USA and NIH, USA. His talk was focussed on solving the structure of the ATP synthase using molecular biology and cryo electron microscopy techniques.

**Number of participants:** 200 (Biological Science students)
