

Department : Nutrition and Dietetics (PG Food Science and Nutrition)
Activity : Webinar
Date : October 27,2020
Title of the activity - Applications of Nanotechnology in food industry
Industry / Resource Person - Dr. Jeyan Arthur Mosses, Asst. Professor, Dept of Food process Engineering,IIFPT, Thanjavur

Brief Report

Dr.Jeyan Arthur Moses journeyed through the talk by starting with history of nanotechnology followed by the fascinating properties of nanotechnology. The professor from Indian Institute of Food Processing Technology, Thanjavur, briefed about classification and synthesis of nanoparticles. The speaker stated the current uses of nanotechnology in pharmaceuticals industries where the idea of various products are drawn from nature. The speaker also shared the guidelines for Evalutaion of Nanotechnology in Food products and encouraged further reading on field of nanotechnology. The webinar was attended by I and II year Students of PG Food Science and Nutrition.

Number of Participants – 64

Webinar on application of nanotechnology in food industry

Welcome address by Dr. V Padma
