

A Report on the Alumni Talk

The “School of Commerce” organised an alumni talk for the final year B. Com Industry Integrated students, on 4th January 2024. It was an hour-long session by Miss. Kajal Hamjad who is an Innovation Insight Manager at DS Smith PLC, London, UK. The technical requirement was arranged by Ms Sharon Jasmine V. Teertha Ravichandran welcomed the guest with an insightful introduction summarising the speaker's pathway in her career. The speaker, Miss Kajal, is an alumni of MCC and from our B. Com Industry Integrated course. She began the session by asking us our experience in the college and what we feel as a final year Carmelite. She then shared her college life experience at MCC, and the transformative journey of a shy and introvert girl, to a confident and bold young woman. She shared 5 principles which she learnt from her journey so far. Some of those principles included the mantras to succeed in the corporate world, importance and techniques of networking, tips to stand out and perform well in our field of job and the importance of being open minded and most importantly, the public relations to maintain in our career.
