

Guest lecture: “Scope of higher studies abroad”

Guest speaker: Mr. Divay Tak, Business Development Manager, ISDC, Bengaluru.

Schedule: 27th August, 2024 at 12:30pm, room LSCB 314.

Target audience: Final year UG students of Biotechnology courses.

Topics discussed: Focus on higher studies and Masters abroad.

Teacher coordinator: Dr. Saranya Jayaram, Assistant Professor, Department of Biotechnology.

This talk addressed various important topics like:

- Why Masters?
- Pay scale, competition and career growth.
- Entrepreneurship trends and opportunities.
- Issues of why there is unemployment in India and solutions to it such as startup hubs abroad by Indians.
- Advantages of doing a Masters abroad like high return of investment, diverse course options etc.
- Package details (entry level) of various Masters programs abroad at reputed colleges and Universities. Student requirements for these programs: ELP, Std Test, GPA SOP, LOR, transcripts, resume, essay.
- Choosing loan for study, moratorium extension.
- Short listing and process for applications.
- Scholarship programs offered in India, abroad, Corporate scholarship, scholarship offered at top universities.
- Job Opportunities, industries and companies.
- ISDC- intro. and courses offered.
- Internship opportunities at ISDC.

The session covered all the details, from start to end, for a student who is interested to consider studies abroad.
