REPORT ON SEMINAR
"CYBER SECURITY AND ETHICAL HACKING"
On
31st JANUARY 2024

The Department of Computer Science in Mount Carmel College organized a 2-hour seminar on "Cyber Security and Ethical hacking" on 31st January 2024 in DJB basement auditorium. The seminar focused on creating awareness about the various cybercrimes and the importance of cyber security. The seminar started at 1:30 pm with the Prayer by Ms. J. Andrea which was followed by the welcome address by Ms. Syeda Faaiza Afreen who are both 3rd year BCA students at Mount Carmel College. The dignitaries of the seminar were Mr. Sreenath Gopinath, Director and CMO Techbyheart and Mr. Resal, Associate Member, National Cyber Safety, and security standards.

Prayer by Ms. J. Andrea

Welcome Speech by Ms. Syeda Faaiza Afreen

The first talk was given by Mr. Resal. He explained the various cybercrimes like DoS attacks, spamming, hacking, keyloggers and phishing. His interactive presentation sparked enthusiasm among the audience, captivating their interest in learning about cybersecurity. Additionally, he provided practical examples, enhancing our comprehension of the concepts. He also highlighted the legal consequences of some of the minor cyber offences that students commit often. Finally, he provided valuable insights from his experience in the cybersecurity industry which encouraged the audience to consider cybersecurity and ethical hacking as a career.

Talk by Mr. Resal

Then Mr. Sreenath Gopinath delivered a concise talk. He explained the term ethical hacking and gave us a brief history of 2 important hackers. He also enlightened us about white hat hackers.

Talk by Mr. Sreenath Gopinath

Subsequently, a feedback session followed by, during which a few members from the audience shared their input.

Feedback Session

The seminar ended with a vote of thanks presented by Ms. Sindhu S and a Group picture.
