

Guest Lecture

Department: Life Science

Activity: Guest Lecture

Date: 11th March 2023

Name of the Programme: The Evolution and Genetics of butterfly Wing Colour Patterns

Participants: 55

Resource Person: Dr Krushnamegh Kunte

Target Audience: M.Sc Life Science students

Write-up: Dr Krushnamegh Kunte an associate professor from National Centre for Biological Science addressed our M.Sc students. He spoke about *Papilio polytes*, otherwise known as the Common Mormon butterfly and their discrete nature of mimetic polymorphism. This talk was organised for students to acquire knowledge in natural selection and conservation biology as a part of their evolution and ethology paper.
